

FOSSIL

THE GAME-CHANGER FOR SPORTS TURF

Fossil is an advanced **silicon-based plant nutrition product** designed to **maximize turf resilience, quality, and sustainability**. Whether managing golf courses, football pitches, or sports fields, **Fossil** helps turfgrass **perform under pressure** by strengthening plant structures, enhancing nutrient uptake, and improving stress tolerance.

Strengthen

Protect

Enhance

KEY BENEFITS

Stronger, More Resilient Turf

- Enhances cell wall strength, reducing wear and tear from heavy foot traffic and play.
- Improves turf density, leading to a more durable and visually appealing playing surface.

Increases Resistance to Disease & Stress

- Boosts natural plant defences against fungal infections like dollar spot and anthracnose.
- Reduces the impact of drought, heat stress, and salinity, ensuring year-round turf performance.

Optimises Nutrient Uptake

- Increases phosphorus and calcium availability, crucial for root and shoot development.
- Enhances nutrient usage efficiency, ensuring turfgrass gets the essential elements needed for optimal growth and resilience.

Enhances Turf Cut Quality & Playability

- Strengthens leaf blades, improving ball roll consistency on golf greens and pitches.
- Supports a cleaner cut when mowing, reducing stress and improving turf recovery.

Supports Sustainable Turf Management

- Aligns with Integrated Pest Management (IPM) strategies by reducing the need for chemical inputs.
- Promotes soil microbial activity, contributing to a healthier, more balanced turf ecosystem.

ORION
RELEASING THE BIOLOGICAL POTENTIAL OF PLANTS

@OrionFutureTech

FOR PROFESSIONALS ONLY: USE FERTILISER PRODUCTS WITH CAUTION. READ THE LABEL AND INFORMATION RELATING TO THE PRODUCT BEFORE USE. Follow the instructions for use in order to avoid risks to human health and the environment - Do not pollute water with the product or its packaging.

FOSSIL

THE GAME-CHANGER FOR SPORTS TURF

Fossil is a novel formulation combining the plant health promoting benefits of phosphite, with the unique effects of bioactive silicon. Resulting in reinforced turf with greater resilience to pest, disease and abiotic stress.

HOW TO APPLY FOSSIL

Fossil is suitable for golf courses, stadiums, racecourses, sports facilities and more. It can be applied as:

- **Foliar Spray** – for quick uptake and stress mitigation.
- **Root Drench** – to enhance root strength and nutrient absorption.
- **Tank Mix Compatible** – blends seamlessly with most turf management programs.

Get the Competitive Edge with Fossil

Protect and enhance your sports turf with Fossil's cutting-edge silicon technology. Stronger turf means better playability, improved aesthetics, and long-term sustainability.

Product	Application	Water Volume (L)	Rate (L/Ha)	Timing
FOSSIL	Turf	200	2-3	Every 7 - 14 days
